### Why Transpersonal Psychology?

Transpersonal Psychology brings a rich perspective to the business and coaching world by opening you to the powerful resources that become available as we journey to discover the wholeness of the psyche. This distinctive approach opens you to a more fulfilling vision of who you are and what you can achieve, and leads to higher efficiencies, greater wellbeing, and that crucial feeling that you are reaching your true potential.

### How can we help?

The course will provide *maps* and *techniques* that will help you to *transform* your business/work and life through an *awareness* of your *inner strengths* (the 'hidden portfolio'). You will learn how to *align your own strengths* with those of *others* in order to *experience* the *power of co-creation*.

### Transform your being and the world we share

This is a highly informative & participative course.
